Define Problem Statements (Customer Problem Statement Template):

A customer applying for a credit card wants to know whether their application is likely to be approved. However, the customer is unsure if they satisfy the bank's eligibility criteria because approval depends on several factors such as income, employment, family status, and credit history. This uncertainty makes the customer anxious about the outcome.

Example :

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A customer applying for a credit card.	Get my credit card application approved quickly.	I don't know whether I meet the bank's eligibility criteria.	The bank evaluates income, employment, family status, and credit	Hopeful but uncertain about whether my application will be approved.

				history before approving applications.
