Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS • I hope my credit card application gets approved. • What are the bank's eligibility requirements? • I have a stable income. Will that increase my chances?	THINKS • Do I have a good credit profile? • "Will my income and employment be sufficient? • I don't want my application to be rejected
DOES • Fills out the credit card application form • Provides income, employment, and personal details • Waits for the bank's approval decision.	Credit Card Applicant (Customer) FEELS • Hopeful about getting approved. • Anxious while waiting for the result. • Relieved if approved; disappointed if rejected
